This trip is a partnership between Central Baptist Church and Woodland Heights Baptist Church to support American personnel who live and minister in East Asia. The primary goal of this trip is to encourage, support, and help the company personnel during their annual team meeting. Our role is primarily to minister to the families of American IMB personnel.

A major part of this is leading an American style VBS for the worker's children. Our team will be responsible for childcare and activities during the day. This helps the workers focus on their training, planning, and work and help gives the kids a little of their home culture.
